

Shake a Shake a

Put your hands on your hips and shake a shake a shake a shake a little bit
Put your hands on your hips and while you shake you take and make a little dip

With your hands on your hips, tip, with your hands on your hips, tip the other way
Hands on your hips, tip, with your hands on your hips, tip the other way

Your hands on your hips and shake a shake a shake a shake a little bit
Put your hands on your hips and while you shake you take and make a little dip

Put your hands in the air, reach, put your hands in the air and reach up to the sky
Put your hands in the air, reach, put your hands in the air and reach up to the sky

Your hands on your hips and shake a shake a shake a shake a little bit
Put your hands on your hips and while you shake you take and make a little dip

Put your arms down at your sides, put your arms at your sides while hopping up & down
Your arms down at your sides, put your arms at your sides while hopping up & down

Your hands on your hips and shake a shake a shake a shake a little bit
Put your hands on your hips and while you shake you take and make a little dip

Put your arms out in front of you, put your arms out in front and clap your hands in time
Arms out in front of you, put your arms out in front and clap your hands in time

Your hands on your hips and shake a shake a shake a shake a little bit
Put your hands on your hips and while you shake you take and make a little dip

Put your hands behind your back, put your hands behind your back and turn around
Hands behind your back, put your hands behind your back and turn again

Your hands on your hips and shake a shake a shake a shake a little bit
Put your hands on your hips and while you shake you take and make a little dip

Put your hands on your hips, shake, put your hands on your hips and shake a little bit
Hands on your hips, shake, put your hands on your hips and (make a little dip)...(shake a little bit...)

Round & Around

Round and around and around we go, where we stop nobody knows
Round and around and around we go, let's stop, and stand on our toes

Holding hands and off we go, like a clockwise circle goes
Keep the rhythm and the flow, let's keep moving as we crow

Round and around and around we go, where we stop nobody knows
Round and around and around we go, let's stop, and stand on our toes

The other way just could be fun, back we go the spring has sprung
Counter clockwise on our way, we can countdown as we say
12, 11, 10, 9 o'clock, 8, 7, 6, 5 don't stop, 4, 3, 2, and 1, as we go

Round and around and around we go, where we stop nobody knows
Round and around and around we go, let's stop, and stand on our toes

Moving clockwise, accelerate, keep on moving that's all it takes
We can make another round while we sing this song that sounds like

Round and around and around we go, where we stop nobody knows
Round and around and around we go, let's stop, and stand on our toes

Isn't this a merry-go-round, add a little up & down
We can go round again but don't forget to bend
1, 2, 3, 4 o'clock, 5, 6, 7, 8 don't stop, 9, 10, 11, 12, we've just been

Round and around and around we go, where we stop nobody knows
Round and around and around we go, let's stop, and stand on our toes

Put Your Best Foot Forward

Put your best foot forward, take my hand, bring your other one toward it,
make a stand

Make our hands and feet like one, moving around and having fun

Face your neighbor patty cake, put your hands together and have a shake

First the left one then the right, our high fives are out of sight

One step right and one step left, keep in time and do your best

Moving back and forth as one, we can make a ton of fun

Put your best foot forward, take my hand, bring your other one toward it,
make a stand

Make our hands and feet like one, moving around and having fun

Turning back and you can see just the same picture as me

Pirouette the other way and say we've been around today (Hey, we've been
around today)

Put your best foot forward, bring the other one toward it

Clap our hands together, like we could do it forever

Reaching up to touch the sky, stretching up like we can fly

Bending down to touch our toes, we can shrink and we can grow

Put your best foot forward, take my hand, bring your other one toward it,
make a stand

Make our hands and feet like one, moving around and having fun

Bobbing our heads side to side like we're going for a ride

On a boat we rise and fall, now's the time to have a ball

Put your best foot forward, take my hand, bring your other one toward it,
make a stand

Make our hands and feet like one, moving around and having fun

Put your best foot forward, bring the other one toward it

Clap our hands together, like we could do it forever

Clap our hands together, like we could do it forever... (we can do it
forever...)

What Do You Have to Say?

What do you have to say, what do you want to play
What do have to say about today

It's a mystery, shh, making history, woosh
Your majesty, you'll be King for a day
There's a scepter over there, oh a magic wand, contrere
Just pick it up and wave it in the air
You were modeling a hat, but you put it where you sat
When you picked it up you found that it was flat, oh no
Then you thought you said a lot, you remembered then forgot
You were dreaming of today and what to play, hey, hey

What do you have to say, what do you want to play
What do have to say about today

There's a book I'd like to read, it's a fairy tale indeed
And I sometimes like a story read to me
Hide and seek is always fun, one can count and some can run
And hide behind a tree right nest to me, peek and see

Chances that we take, friends that we make
Games that we play, things that we say

What do you have to say, what do you want to play
What do have to say about today

On some paper I can draw happy faces that I saw
When we were playing and having a ball
Through a tunnel I can crawl, down a slide I gently fall
On a ladder I can climb up with my paws to applause

What do you have to say, what do you want to play
What do have to say about today

When we're playing in the sand and you give me a hand
We can put together something that is grand, you & me

Chances that we take, friends that we make
Games that we play, things that we say

What do you have to say, What do you want to play

Doodlin'

Doodlin', doodlin', making up some pictures, Noodlin', noodlin', it's a real mixture
Circles, arrows, squares and triangles, Lines I'm drawing, get a little tangled

Putting on the paper something that I'm thinking
Even if I don't know what it is I'm really thinking

Tracing, tracing , slowly, not racing, Sketching, sketching, something that is
fetching
Imagine drawing a line that is sawing, It just looks like a bone a dog is gnawing

Putting on the paper something that I'm thinking
Even if I don't know what it is I'm really thinking

Squiggles, wiggles, lines that are like tickles, Fickle, icicle, looks a little like a
pickle

Putting on the paper something that I'm thinking
What a funny picture, is that really what I'm thinking?

Drawing, pawing, many lines are crawling, Like a bug that's scratching and
scrawling

Putting on the paper something that I'm thinking
Even if I don't know what it is I'm really thinking

Doodlin', doodlin', making up some pictures, Noodlin', noodlin', it's a real mixture
Last time I looked at what I was writing, It just seemed like some crazy lines were
fighting

Putting on the paper something that I'm thinking
What a funny picture, is that really what I'm thinking? (that's doodlin')
Doodlin', making up some pictures
Putting on the paper something that I'm thinking (that's noodlin')
Noodlin', it's a real mixture
Even if I don't know what it is I'm really thinking (that's doodlin')

(Doodlin') Doodlin', making up some pictures
Noodlin', noodlin', it's a real mixture...

Make Believe

You can do anything if you try, anything is possible pigs can fly
You have some magic up your sleeve when you are playing make believe

Nothing's impossible or even improbable, you can be anything you want to be
Dressing in funny clothes so everybody knows, now you look different than a moment ago

You can do anything if you try, anything is possible pigs can fly
You have some magic up your sleeve when you are playing make believe

You might be a king or queen or some royal in between
Granting some wishes with your magic wand
Dressing up like a clown with the funniest look in town
In your best satin gown, sash, hat and vest (button down)

Dressing up is fun to do, dressing up is fun to do

You can do anything if you try, anything is possible pigs can fly
You have some magic up your sleeve when you are playing make believe

Hey, ho and look at me, I am a sight to see, I'll sing a little tune in my next costume
A rabbit is in my hat I'll pull him out just like that & before you know it I'll put him back

You can do anything if you try, anything is possible pigs can fly
You have some magic up your sleeve when you are playing make believe

Nothing's impossible or even improbable, you can be anything you want to be

Dressing up is fun to do, dressing up is fun to do

You can do anything if you try, anything is possible pigs can fly
You have some magic up your sleeve when you are playing make believe
You have some magic up your sleeve when you are playing make believe...

It's always more fun (if you share)

It's always more fun if you share, did you know two can become a pair
It's always more fun if you share, when you show someone else you care
It's always more fun if you share

We can work together no matter the weather
And play games together, we could do it forever
When we help each other we've got it covered
Like sisters and brothers give a hand to each other

It's always more fun if you share, did you know two can become a pair
It's always more fun if you share, when you show someone else you care
It's always more fun if you share

When I give you my hand united we will stand
Stronger than ever, it's all for the better
We can do it, we're light as a feather
Floating up there like balloons on a tether

It's always more fun if you share, did you know two can become a pair
It's always more fun if you share, when you show someone else you care
It's always more fun if you share

We look after each other, we like one another
Having fun together forever & ever
When we both are smiling, it's so delighting
And we laugh out loudly, we're sharing it proudly

It's always more fun if you share, did you know two can become a pair
It's always more fun if you share, when you show someone else you care
It's always more fun if you share

Bug Hunting

We're putting on our safari hats, wondering what we are going to catch
Going Bug Hunting, they're hiding but we're going to find 'em, Bug Hunting

Send a search party, be surprised, just don't know what we're going to find
Thrills & chills & excitement too, ooh, creeping up behind you
Does it have eight legs or six, you will find out when you pick up sticks
Tucked away in a corner there, look if you dare

We're putting on our safari hats, wondering what we are going to catch
Going Bug Hunting, they're hiding but we're going to find 'em, Bug Hunting

What will we find along the way, an old piece of candy, throw it away
And just when you think you can't, ooh, it's an ant

We're putting on our safari hats, wondering what we are going to catch
Going Bug Hunting, they're hiding but we're going to find 'em, Bug Hunting

When it comes to flies & butterflies, you need a net and some disguise
Maybe you can dress up like a tree, then they can land on you and me

We're putting on our safari hats, wondering what we are going to catch
Going Bug Hunting, they're hiding but we're going to find 'em, Bug Hunting

Bug hunting is fun, inside or out in the sun
Bug hunting is neat, using our hands and our feet

Bugs can hop & run & jump, some get together in a clump
There is a nest right over there, ooh, beware

We're putting on our safari hats, wondering what we are going to catch
Going Bug Hunting, they're hiding but we're going to find 'em, Bug Hunting
They're hiding but we're going to find 'em, Bug Hunting

Running Water

With running water wash your hands, 'cause you oughta and you can
With running water wash your hands before you're eating something grand

With running water wash off the stain like a flower in the rain
Running water can be cool like a bath or swimming pool
Or a shower on your hands washing off that gritty sand
From your playtime bucket loads of sand and water building roads

With running water wash your hands, 'cause you oughta and you can
With running water wash your hands before you're eating something grand

Running water means you can eat with clean hands and that's really neat
Running water helps you be safe, always use it before you eat

Running water in a snap, all you do is turn on the tap
When you're finished turn it off, then your hands feel wet and soft
And you dry them with a towel usually hanging on a dowel
Now you're finished, take a seat and have something good to eat

Running water means you can eat with clean hands and that's really neat
Running water helps you be safe, always use it before you eat

For running water clap your hands, 'cause you oughta and you can
With running water wash your hands before you're eating something grand
For running water clap your hands before you're eating something grand
For running water....

Stories

You like a chapter, I like a verse, you wait for what comes after the first
I like to get there quick as I can, you like to have some time to scan
We can imagine when we hear a storytellers voice so clear
Trying to guess what happens next, listening closely doing our best

Stories, stories, we want to have more of these
Stories, stories, fairy tales, fables and mysteries

A frog is sitting on a pond, maybe it's a pad he's sitting on
And when a fly comes buzzing past, how is this story going to last
Someone is standing on a bench, someone is lying in a trench
Another is sitting on the fence, which one has the most common sense

Stories, stories, we want to have more of these
Stories, stories, fairy tales, fables and mysteries

A fish is swimming in a tank, what would happen if this fish sank
A bird is flying 'round the room, open the window and let it zoom
Someone was cooking up a stew, others joined in and called it a brew
They were not cut from the same cloth, too many cooks just spoil the broth

Stories, stories, we want to have more of these
Stories, stories, fairy tales, fables and mysteries

There is a time and place to start, once upon a time is that part
Then take a trip to a faraway land for an ending that wasn't planned

Stories, stories, we want to have more of these
Stories, stories, fairy tales, fables and mysteries...

We Love to Ride

We love to ride, we love to glide, we love to stride, Whatever we do we know we tried

We love to ride, we love to slide, in or outside, whatever we do we do with pride

We love to ride on everything, sing a song and have a swing
We love to ride on everything, I see you saw that kind of thing
Climb aboard, you don't need wings

Riding in a car, it can take you far, Riding on a horse gets you there a bit slower of course

Sliding down a slide, everything we ride, swinging on a swing, we just love the pleasure it brings

Our playground is a rocket ship, fly to the moon and have a skip
There's always time to take a trip, hold on tight and get a grip
Climb aboard, you'll really flip

Flying like a plane, riding on a train, And I saw you see, you can play this game with me

On a downhill ride fills me up with pride, a scooter or a trike, this is something else we like

I love to go to places where my imagination's there
And build a fort or ship for us, where we can heave & ho and such
Climb aboard, you don't need much

Making merry rounds, hearing funny sounds, as we twirl around, Hold on tight & don't fall down

Hitching up our wagon to a friendly dragon, heading for the cave, On our way we stop and rave

We love to ride on everything, sing a song and have a swing
We love to ride on everything, I see you saw that kind of thing
Climb aboard, you don't need wings

We love to ride, we love to glide, we love to fly, Whatever we do we always try
We love to ride, we love to slide, in or outside, whatever we do we do with pride
We love to ride we love to glide, we love to fly off into the sky
